

CHEMISTRY AND BIOCHEMISTRY

Admission

An applicant must have a baccalaureate degree or its equivalent from an accredited college or university. The applicant's academic record must indicate adequate preparation for graduate study in the Department of Chemistry and Biochemistry. Generally, to be considered for admission, a student should have a minimum grade point average of 3.00 in the sciences on a 4.00 scale and score at or above the 50th percentile on the GRE. However, these guidelines are flexible, and slight deficiencies in one area can be compensated by strengths in another. In addition, applicants whose native language is not English must obtain a minimum score of 600 (250 computer-based score) on the TOEFL exam or 7 on the IELTS exam.
