

SPANISH, PH.D.

Admission

To be admitted to the Ph.D. program in Spanish, candidates typically have an M.A. in Spanish or related fields. A total of 30 credit hours may be approved toward the doctoral program. The Graduate Advisor in Spanish is responsible for the approval of the credit hours and for designing individual programs of study.

Students with an M.A. in a related field may need to take a Proficiency Test to show verbal, written and reading skills in Spanish. Exceptions may be considered when the student's first language is Spanish.

Students who desire to pursue the Ph.D. in Spanish may enroll concurrently in the M.A. program in Spanish. In order to be admitted to the doctoral program, they must pass a Qualifying Examination during their third semester of M.A. work.
