

# QUANTITATIVE PSYCHOLOGY MINOR

---

## Degree Requirements (12 hours)

Students must make a B or better in four, 3-credit hour advanced quantitative courses that are 700-level or higher and have 710 (or comparable course) as a pre-requisite. Assessment classes do not count toward this requirement.

At least three of the four courses are required to be taught in the Psychology Department. Up to one the four courses may be taught in another department, chosen from the list below:

Course	Title	Credits
BIOS 754	Discrete Data Analysis	3
or STAT 770	Categorical Data Analysis	
BIOS 761	Survival Analysis	3
BIOS 820	Bayesian Biostatistics and Computation	3
STAT 824	Nonparametric Inference	3
or EDRM 712	Nonparametric Statistics	
EDRM 728	Technical Aspects of Tests and Measurements	3
STAT 778	Item Response Theory	3
or EDRM 828	Item Response Theory	
PUBH 791	Special Topics Public Health	3
