

ECONOMICS, M.A.

The Master of Arts in Economics program prepares the student for a career as a professional in economics, finance, business or government or for further graduate work in the field of economics or finance. Prior degree work in economics is not required.

Learning Outcomes

1. Students will be able to engage in effective business communication, with competencies demonstrated for both oral and written communication.
2. Students will be able to use specialized expertise in a functional area or domain area to address complex business or economic issues.
3. Students will examine the role of quantitative data in managerial decision making. They will understand the importance and roles of different types of data. Students will be able to present data in various formats.
