

HEALTH SERVICES POLICY AND MANAGEMENT / PUBLIC ADMINISTRATION, M.P.H. / M.P.A.

The Department of Health Services Policy and Management in the Arnold School of Public Health and Department of Political Science in the College of Arts and Sciences offer a coordinated program that leads to the Master of Public Health (MPH) in Health Services Policy and Management and the Master of Public Administration (MPA). Some courses fulfill requirements for both portions of the dual degree. Through academic advisement, specific courses are chosen for each individual student to satisfy both sets of program requirements. The MPA requires 18 credit hours in core courses completed in the first year of study; the MPH has 16 hours of required sequenced core courses completed in the second year of study.

Requirements

Two courses (6 credit hours) from the MPA can be applied to the MPH program of study. POLI 774 satisfies the HSPM Policy Elective Requirement and POLI 775 satisfies the required HSPM Management Course HSPM 730.

Completion of HSPM 788 satisfies the MPA internship requirement. One HSPM Management Elective (3 credit hours) approved by the advisor can be applied to the MPA program of study. Thus the 39 credit hours required for the MPA and 45 credit hours required for the MPH can both be completed with a total of 72 credit hours.

The table below reflects the plan of study for a full-time student who begins the dual degree program with the MPA. This plan may be adjusted in consultation with HSPM and POLI advisors.

Course	Title	Credit Hours
First Year		
Fall		
POLI 770	Perspectives on Public Administration	3
POLI 771	Public Data Analysis	3
POLI 773	Human Resources Administration in Government	3
