

# **INTERNATIONAL BUSINESS / UNIVERSITY OF MANNHEIM, M.I.B. / MANNHEIM MASTER OF MANAGEMENT**

---

The program is designed as a double or dual degree program, which allows students to pursue degrees at both institutions. Each institution confers its own degree for work done to meet the graduation standards of the program of that institution. The program will give selected students from both institutions the opportunity to acquire the Master of International Business (MIB) from USC and the Mannheim Master in Management M.Sc. (MMM) from the University of Mannheim.

## **Admissions**

MMM students may apply for the double degree program within their first semester of studies. USC selects students for the double degree program before the start of their MIB program at USC.

## **Degree Requirements**

The requirements for each degree have to be fulfilled and each institution will be the sole judge of whether a student has completed the requirement for the degree that it awards.
