ENGINEERING MANAGEMENT, M.S.

Learning Outcomes

• Graduates will demonstrate the expertise to supervise and lead teams of engineers and other technical personnel, to perform to meet project objectives and to lead the negotiation teams.

• Graduates will demonstrate the expertise to analyze risk in engineering projects.

Degree Requirements

Students may follow one of the following three tracks: General, Cyber Security, and Energy. For the M.S. degree, 30 credit hours are required. At least 15 course credit hours must be 700-level or higher. A non-thesis option is available for the General track only.

General Track Program of Study

Required Courses (12 Hours)

Total Credit Hours 10-15

Business Electives (9 Hours)

Select three of the following: 3

ACCT 728 Financial Accounting
IBUS 734 International Business Negotiations
MGMT 718 Management of Human Resources
MGMT 770 Competing Through People
MKTG 701 Marketing Management

Total Credit Hours 3

Energy and Computing Elective (3 Hours)

Select one of the following technical courses or an approved 500-level or above course: 3

CSCE 522 Information Security Principles
CSCE 715 Network Systems Security
CSCE 727 Information Warfare
CSCE 790 Topics in Information Technology
ECHE 573 Next Energy
ECHE 789 Selected Topics in Chemical Engineering
ECIV 790 Selected Topics in Civil Engineering
ELCT 510 Photovoltaic Materials and Devices
ELCT 891 Selected Topics in Electrical Engineering
EMCH 529 Sustainable Design and Development
EMCH 791 Selected Topics in Thermal Systems

Total Credit Hours 3

Thesis Preparation or Non-Thesis Option (6 Hours)

The General track has two options: Thesis and Non-thesis. The Thesis Option includes 6 credit hours of Thesis Preparation. The course number for the thesis will be specific to the department in which the research is conducted (CSCE 799, ECIV 799, ELCT 799, or EMCH 799). The Non-Thesis Option includes 6 additional credit hours of Engineering and Computing Electives, of which a maximum of 3 credit hours may be a special topic/directed studies course for a project.

Cyber Security Track Program of Study

Required Courses (9 Hours)

Total Credit Hours 9

Business Electives (9 Hours)

Select three of the following: 3

ACCT 728 Financial Accounting
IBUS 734 International Business Negotiations
MGMT 718 Management of Human Resources
MGMT 770 Competing Through People
MKTG 701 Marketing Management

Total Credit Hours 3

Cyber Security Elective Courses (6 Hours)

Select two of the following: 6

CSCE 522 Information Security Principles
CSCE 715 Network Systems Security
CSCE 727 Information Warfare

Total Credit Hours 6

Thesis Preparation (6 Hours)

The Cyber Security Track requires a thesis related to cyber security. The course number for the thesis will be specific to the department in which the research is conducted (CSCE 799, ECIV 799, ELCT 799, or EMCH 799).

Energy Track Program of Study

</table>

Total Credit Hours  6

Thesis Preparation (6 Hours)

The Energy Track requires a thesis related to energy. The course number for the thesis will be specific to the department in which the research is conducted (CSCE 799, ECIV 799, ELCT 799, or EMCH 799).

Comprehensive Exam

All candidates for a degree in the MS in Engineering Management graduate program must complete a comprehensive assessment that is distinct from program course requirements. A comprehensive assessment requires the student to synthesize and integrate knowledge acquired in coursework and other learning experiences and to apply theory and principles in a situation that approximates some aspect of professional practice or research in the discipline. It must be used as a means by which faculty judge whether the student has mastered the body of knowledge and can demonstrate proficiency in the required competencies. Students in the MS in Engineering Management graduate program will fulfill the comprehensive assessment requirement by successful completion and defense of the thesis. For students completing the Non-thesis Option, the comprehensive exam will be administered by the student’s advisor.

International Concentration

For the International concentration, the student will have preliminary knowledge of a foreign language. Students will complete three credit hours for language instruction and six credit hours for professional experience in an internship program in a foreign country. The internship program must be approved by the College of Engineering and Computing prior to the student’s departure to the foreign site.
