HEALTH INFORMATION TECHNOLOGY, M.H.I.T.

Degree Requirements (36 Hours)

Students take a combined 36 credit hours of coursework from both the IIT Department and from the Arnold School of Public Health. Students take a core of six courses (18 credit hours), four from IIT and two from the Arnold School's Department of Health Services Policy and Management. Students then choose four elective courses (12 credit hours), including at least one from Integrated Information Technology and one from the Arnold School of Public Health, and complete an internship of six credit hours.

The required internship (6 credit hours) consists of a minimum of 250 hours of approved health information technology work experience to be completed during the summer. It also requires a research paper, which will be evaluated as the student's comprehensive assessment of program learning outcomes. The integration of work experience with academic research is designed to provide a structured format for students to reflect on their work experience and relate it to content and theory learned across the program.

Courses are conducted online or in a traditional classroom setting offered in the evenings and weekends to fit the schedules of working professionals. Depending on their professional experience and interest, students can tailor their program to gain breadth and depth in either the health or information technology components. Students with undergraduate degrees or extensive professional experience in healthcare would take most of their electives in information technology, while students with undergraduate degrees or experience in information technology would take their electives from the health component.

Core Courses (18 Hours)

Course | Title | Credits
---|---|---
ITEC 747 | Management of Health Information Systems | 3
ITEC 752 | Systems Analysis & Design for Health Applications | 3
ITEC 764 | Project Management for Health Information | 3
ITEC 770 | Health IT Database Systems | 3
HSPM 700 | Approaches and Concepts for Health Administration | 3
or PUBH 700 | Perspectives in Public Health | 3
HSPM 768 | Health Services Administration II | 3

Total Credit Hours 18

Health Electives (3 - 12 Hours)

Any combination of minimum of three to maximum of 12 credit hours.

Course | Title | Credits
---|---|---
Select 3-12 hours of the following: | | 3-12
BIOS 710 | Effective Data Management for Public Health | 
HSPM 711 | Health Politics | 
HSPM 712 | Health Economics | 
HSPM 726 | Applied Public Health Law for Administrators | 
HSPM 730 | Financing of Health Care | 
HSPM 769 | Organizational Behavior | 
HSPM 777 | Healthcare Policy and Principles of Health Insurance | 
HSPM 791 | Selected Topics | 
NURS 717 | Application of Basic Statistics for Nursing Practice & Service Management | 
NURS 734 | Conceptual Basis of Health Systems | 
NURS 738 | Financing of Health Care | 

Total Credit Hours 3-12

Information Technology Electives (3 - 12 Hours)

Any combination of minimum of three to maximum of 12 credit hours.

Course | Title | Credits
---|---|---
Select 3-12 hours of the following: | | 3-12
ITEC 590 | Special Topics in Integrated Information Technology | 
ITEC 743 | Health Information Privacy and Security | 
ITEC 745 | Telecommunications for Health Information Technology | 
ITEC 762 | Health Information Technology Usability and Interface Design | 
ITEC 775 | Large-Scale Health and Information Systems | 
ITEC 776 | Health Information Technology and Clinical Transformation | 
ITEC 790 | Special Topics in Informatics | 
ITEC 795 | Independent Study in Health Information Technology | 

Total Credit Hours 3-12

Internship (6 Hours)

Course | Title | Credits
---|---|---
ITEC 748 | Internship in Information Technology | 6

Total Credit Hours 6
