Vision Statement

An innovative, flexible and dynamic organization, the Graduate School at the University of South Carolina seeks to become a collaborative guide celebrated for responsive and efficient service. We strive to provide accessible and trusted leadership to the campus and higher education communities.

Goals

1. Better serve the needs of students, applicants, faculty, staff, and other members of the university community.
2. Provide meaningful professional development, academic enrichment activities and student services to enhance the graduate student experience.
3. Advance the reputation of UofSC as a top ranked research institution by promoting graduate education and building a collegial community of scholars.
4. Build public and university awareness of the importance and value of the Graduate School at UofSC.

Degree Programs

The Graduate School oversees postbaccalaureate degree programs designed to give qualified individuals professional competence in specialized disciplines and trains scholars, research specialists, teachers at all levels, and experts in various professions. The term "degree program" includes programs leading to a graduate certificate, specialist, master's, or doctoral degree. Emphasis is placed on methodology as well as on mastery of defined areas of subject matter. Graduate work brings together a group of scholars actively engaged in research and thus provides a close association between students and mature investigators with a wide range of interests. While emphasizing specialization as basic to graduate work, the Graduate School encourages interdisciplinary study as a response to the complex problems of a rapidly changing world.

The degree of Doctor of Philosophy is offered in more than 50 academic areas, while professional doctorates are offered in education, music, nursing, pharmacy, physical therapy, and public health. The University's School of Medicine offers the degree of Doctor of Medicine, the School of Law offers the degree of Juris Doctor, and the South Carolina College of Pharmacy offers the degree of Doctor of Pharmacy.

The University offers the Master of Arts, Master of Fine Arts, Master of Media Arts, Master of Science, and the Master of Arts in Teaching in several disciplines. It offers professional master's degrees (e.g., Master of Business Administration, Master of Library and Information Science, Professional Science Master, and Master of Education) in many academic units, including arts and sciences; hospitality, retail, and sport management; business; education; engineering and information technology; mass communications and library and information studies; medicine; music; pharmacy; public health; and social work. Education Specialist degrees are available in library and information science as well as education (teaching, educational administration, and counselor education).

In addition, certificates of graduate study are offered in advanced practice nursing, applied statistics, biomedical studies, business analytics, cost management, counselor education, criminal justice leadership, cyber security studies, drug and addictions studies, enterprise resource planning systems, financial and resource management, gerontology, global strategy, health communication, higher education leadership, historical archeology and cultural resource...
management, human resources, international finance, library and information science, museum management, music performance, nursing administration, play therapy, psychiatric rehabilitation, public health, qualitative research, railway engineering, social and behavioral health with military members, veterans, and military families, teaching English to speakers of other languages, visual anthropology, and women's and gender studies.

**Graduate Dual Degree Programs**

Through special formal arrangement, the University offers dual degree programs in certain areas to permit a student to work on two degrees simultaneously, resulting in the student's taking fewer credits than the total required if each degree were pursued independently. The number of graduate credit hours required for dual degrees varies by approved dual degree program arrangement. Students wishing to enroll in two degree programs not formally approved may apply for concurrent enrollment.
