# FAMILY NURSE PRACTITIONER, D.N.P.

The Family Nurse Practitioner (FNP), Doctor of Nursing Practice (D.N.P.) is a practice degree designed to prepare nurses as clinical practitioners/scholars to assume advanced practice clinical roles. The curricular plan is designed for the student who has a Bachelor of Science in Nursing (B.S.N.). The degree prepares graduates to provide direct patient management in primary care across many complex health systems as well as population based and application science to improve patient outcomes. Graduates will be prepared to lead and care for diverse populations in the community they serve. Graduates are employed in a variety of primary care settings ranging from emergency departments, federally qualified health centers, urban and rural family practice/primary care practices.

This curriculum prepares nurses to sit for the Family Nurse Practitioner national certification.

#### **Learning Outcomes**

- Identify direct and indirect clinical problems in complex health settings and work with interprofessional teams to address patients across the lifespan.
- Differentiate theoretical knowledge as it applies to direct or indirect clinical care.
- 3. Translate evidence to address population health problems.
- Integrate data bases and information literacy in designing interventions for advanced practice.
- Execute evidence-based interventions to improve health care outcomes.

### **Entry**

The FNP, DNP program offers one entry point for students:

<u>B.S.N.</u> entry - a student must hold a Bachelor of Science in nursing degree from a program that is nationally accredited.

## Requirements for Earning the D.N.P. Degree include:

- Doctoral residency of at least 18 graduate credit hours for three consecutive major semesters. Enrollment in a summer term is not required to maintain continuity, but credits earned during summer terms (including May session) will count toward the 18 hours required for Residency. The residency requirement may be met only after admission to the D.N.P. program;
- 2. Completion of an approved program of study;
- 3. Comprehensive assessment through defense of project proposal;
- Completion of a research utilization / evidence-based practice project and oral defense.
