

ECONOMICS, B.A.

The Bachelor of Arts in Economics is ideal for students interested in the connections between economics and social sciences such as psychology, political science or sociology, and who may be interested in law school or other graduate studies. Students will take courses that teach the foundation of economic systems, monetary policy, inflation, price determination, competition while gaining skills in decision making and statistical analysis. Economics graduates often enter careers in law, business, social sciences and public service.

Learning Outcomes

1. Our graduates will understand core microeconomic theories and concepts.
2. Our graduates will understand core macroeconomic theories and concepts.
3. Our graduates will be able to solve basic equations to find equilibrium outcomes and use graphs to understand and interpret economic relationships.
4. Our graduates will be able to demonstrate their understanding of economic concepts and quantitative knowledge and use these concepts and knowledge to analyze real-world problems.
