

INTERDISCIPLINARY STUDIES, B.A.I.S. (COLLEGE OF ARTS AND SCIENCES)

Not accepting majors at this time

Learning Outcomes

1. Students will identify interdisciplinary approaches to scholarship through thematic or problem-focused study. They will demonstrate the ability to use information, concepts, analytical approaches, and methods involved in at least two related fields.
2. Students in the BAIS and BSIS programs will synthesize a personalized set of outcomes and independently work towards achieving them.
3. Students in the BAIS or BSIS program will be admitted to graduate/professional school or will be hired in entry-level positions in their fields within three (3) years of graduation.
