

ANCIENT GREEK LITERATURE MINOR

Students in this minor develop fluency in Greek so they may study classical texts in their original language.

Classical literature is foundational in the study of history, art history, philosophy, political science, law, religious studies, modern literature, healthcare professions and the sciences. Through the study and interpretation of these works, students acquire a deeper understanding of the linguistic and conceptual roots of their own cultures, preparing them for careers or future studies in a multitude of fields, including journalism, publishing, education or scholarly research.
