Student Objectives

The University is dedicated to providing all undergraduate students with a common core of knowledge, skill, and academic experience. This general education curriculum provides the foundation for subsequent specialized study in the student’s major discipline area. The University of South Carolina is in the process of updating this curriculum, ensuring that it remains current and prepares students for productive and meaningful engagement as world citizens equipped for life-long learning. The shared common academic foundation of all University of South Carolina students, the Carolina Core, has 10 core components, each with learning outcomes and credit hour requirements. A description of these components can be found here (https://sc.edu/about/offices_and_divisions/provost/academicpriorities/undergradstudies/carolinacore/requirements/).

History

Like the other USC regional campuses, the Union campus was established as a result of local initiative. The Union County Commission for Higher Education was created by an act of the state legislature in the spring of 1965, and a contract was immediately signed by that commission with the University of South Carolina, an arrangement which guaranteed University-quality education at a low cost for area students within commuting distance of the campus. A former public secondary-school building was secured by the commission, and local funds were made available to renovate the structure. Scheduled classes began in September 1965 for the original freshman class of 51 students. In September 1967, 160 students registered at the campus, and enrollment has continued to climb.
